

Milton Ernest Environmental Volunteer Team

The team, who are all village residents, are led by the Parish Council. The volunteers have a variety of skills, working together, to keep our village smart and tidy.

This means performing such jobs as trimming hedgerows, weeding and tidying pathways, and much more.

Considerable work has been done in the village playing field, where the paths have been restored, seating and play equipment painted, and generally making the area more pleasant for young people and families.

The volunteers say this work is worthwhile and rewarding and enjoy working together for the village, and they would welcome new members to join them. If you wish to join, information is available on the Parish Council website. Parish Council / Policies and Procedures / Volunteer Details Form.
