

Playing Field

Ditch Clearance

Clearing the ditch is not the most glamorous job in the world, but it is an essential job in order to keep the water flowing and prevent any potential flooding. The Volunteer Team approached this work with selfless enthusiasm, and the results were excellent.

In 2023 the volunteer team, collectively, have worked in the playing field for 110 hours. This has saved the village around £1,150.00 over the year.

Other hours of work undertaken during the year elsewhere in the village was 116. This has saved the village around £1,210.00 over the year.

Well done to the team and thank you
