

The Spring Clean At The Church

The Village Volunteer Team were able to help the team from the church in their spring tidy in the church grounds, focussing their efforts in the memorial garden.

All Saints Church

Milton Ernest, is an important place within the village and dates from the 11th century. The upkeep of the grounds is entirely down to volunteers who would benefit from extra help from those who live in the village and take pride in this historic building.

The church has a small remembrance garden for names of those who lived or were connected to the village. The volunteers helped to clean some of the winter grime and tidy the area. There is a small stone seat where you can sit and reflect.

Information about future **All Saints Church** “clear-ups” which includes grass cutting, trimming trees and bushes and general tidying, are usually posted on the Village Facebook page. Please come along to support the village in this.
